

CS 442 Meeting Minutes

Group: 07

Date: March 14, 2019

Time: 12:30 pm

Duration: ~1 hour

Present, on time: Ben Maciorowski, Stephen Walden, Linda Zhou

Present, not on time:

Absent: Tian Zhou

Synopsis: discuss progress on SQL and front-end, story-point new cards regarding Scenario #2

Recent Accomplishments:

Ben

- Fixed Log Out Function
- Style fixes
- Several Hotfixes for small things

Stephen

- Created firescrum database admin account and fixed connection string URI for database

Linda

- Completed putting together our group's goals for Scenario #2
- Created responsive sidebar for task creation on project-specific page (still needs improvement)

Tian

-

Current Activities:

Ben

- Modify task items based on location in swimLane
- Create swim lanes

Stephen

- Determine Whether pursuing SQL is worth it or not. Determining how difficult it would be to change to sqlite3, or go to JSON

- Write API's for datastorage

Linda

- Make sure the routing works for task creation via sidebar
- Continue to make improvements on responsive sidebar
- Will continue working on the scrollable div for project dashboard

Tian

Action Items:

- Get routing for task creation working (Linda)
- Continue to improve the UI of the responsive sidebar (Linda)
- Create swim lanes (Ben)
- Modify task item state based on swim lane location(Ben)
- Api for dealing with data storage. Either JSON or sqlite3. (Stephen)
