# CS 442 Meeting Minutes

Group: <u>07</u>       Date: <u>April 11th, 2019</u>       Time: <u>12:30 pm</u>       Duration: <u>~1 hour</u>

Present, on time: Stephen Walden, Linda Zhou, Tian Zhou
Present, not on time:
Absent: Ben Maciorowski (excused absence due to job interview)

*Synopsis:* draggable feature, demo preparation, discuss next steps for Final Demo, prepare for Final Report, catch up Stephen about the past weeks' progress

### *Recent Accomplishments:*

**Ben**
- More routing stuff
- Modified project data template
- Wrote code to add items to sandbox
- Wrote code to add items from sandbox to backlog
- UI fixes to project current sprint
- Wrote code to show current sprint data

**Stephen**
- Was On Military Drill with 404th MEB

**Linda**
- Implemented chatbox and a discussion feature and Chatbox and discussion board is in live production on the Discussion Board Tab; Chatbox is usable for two users and groups on dashboard
- Created the html/css for the create task form
- Organized the html/css so it's easier to read in CreateTask form and DiscussionBoard page

**Tian**
- Implemented draggable UI elements
- Designed mobile friendly UI styling for smartphone and tablet sized screens

### *Current*

Ben
- Code to modify sprints
- Show past prints
- Code to modify future sprint
- Code to create new sprint

Stephen
- Working on the Backend specifically with data interaction between UI and JSON(temporary data storage)

Linda
- Begin write-up of test cases
- Prepare for Final Report writeup

Tian
- Finish cleaning up UI for medium, desktop, and large desktop resolutions

### *Action Items:*
- Improve front-end such as add labelling to columns on currentSprint (Linda)
- Make sure links are not leading to 404 errors (Linda)
- Working on JSON interfacing (Stephen)
- Sprints management (Ben)
